

Ethylene Middle East Technology Conference (EMET)

Middle East Fine and Specialty Chemicals, (ME-SPEC), Chem- World Exhibition Middle East (ME-CWE)

Manama, Kingdom of Bahrain

Shaping the Future of Middle East Chemical Industry

Three Events. One Venue. Over 3,500 Participants.

Dubai UAE, 20th July 2018: The three most acclaimed events in the chemical industry are set to take place in Bahrain this year. These events will play an integral role in shaping the future of the Chemical Industry in the Middle East.

Under the patronage of His Excellency Shaikh Mohamed bin Khalifa Al Khalifa, Minister of Oil, Kingdom of Bahrain and supported by National Oil and Gas Authority (NOGA), the Ethylene Middle East Technology Conference & Exhibition (EMET) alongside the Middle East Fine and Specialty Chemicals Exhibition and Conference (ME-SPEC) and the Chem-World Exhibition Middle East (ME-CWE) will be held on 11th and 12th December 2018 at the Bahrain International Exhibition & Convention Centre in Manama. Together, the events anticipate reaching over 3,500 participants and over 200 exhibiting companies over the span of two days.

Under the chairmanship of Metab Al Shammari, General Manager-Petrochemicals, SABIC, these events will bring together technical experts from all over the world to share practical experiences, innovative ideas and strategies for reducing costs, maximizing return and creating value on issues related to planning, design, operation and maintenance. Attendees include C-level executives, project engineering managers, unit managers, chemical engineers and other prominent executives from the energy, chemical, retail and construction industry.

Current industry supporters of the event include: **TechnipFMC, BD Energy Systems, CRI Catalyst, Ingenero, Intecha, Kubota, Pall Corporation and Schmidt + Clemens Group, Keit Spectrometers, Kinetic Process Improvements, Chevron Philips, Nalco, MCO Saudi Arabia, Doncasters Paralloy.**

Currently in its 3rd edition, EMET is the event for professionals looking to develop their technical knowledge and optimize their position in the fast-evolving ethylene industry by increased operational efficiency, sustainability and excellence.

The 2nd edition of ME-SPEC provides a regional forum for petrochemical suppliers, converters, Original Equipment Manufacturers (OEMs) and potential investors to showcase their products and services, network, and share knowledge & experience across the entire value chain.

With the assistance of the international network of China National Chemical Information Centre (CNCIC), Chem-World Exhibition (CWE) has become the most influential event in the chemicals and chemical processing industry, having extensive visibility and influence in Middle East. ME-CWE aims to support

and encourage enterprises to gain an in-depth understanding of chemical trends and requirements to expand business opportunities between China and the Middle East. This platform will provide face to face networking opportunities for chemical CEOs, managers, engineers, technocrats and scientists, policy makers, planners, and the world's largest chemical companies.

Combined, these three events make for an unmissable, world class networking event for delegates, visitors and investors.
